

ProPaste™ Rod Building Paste Adhesive & Fast Set Formula

PRO PASTE®
Rod Building Paste Adhesive

FAST SET FORMULA
Sets in 15 Minutes

Designed “For Rod Builders – By Rod Builders”. Experienced rod builders know what they want in a rod adhesive: *easy mixing, good working time, smooth application, simple clean up and the strongest bonding possible*. ProPaste™ Rod Building Paste Adhesive delivers on these needs. ProPaste™ is the latest breakthrough in rod building paste epoxies for any of your adhesive needs. This new paste will stay where you put it and you won't have the mess associated with liquid adhesives. It can be used to bond cork and synthetic handles, metal and graphite reel seats, ferrules, butt caps, hosels and cork rings. It works well as a lubricant when installing EVA. ProPaste's™ forgiving mixing ratio allows fast application with simple cleanup.

For all of the same superior properties as the regular ProPaste™ but with an accelerated cure time for those fast jobs. ProPaste™ Fast Set Formula paste adhesive has an average set time of 15 minutes. ProPaste™ is the Pro's choice for rod building bonding needs.

Caution:

Both resin and hardeners are skin irritants. Avoid contact with skin, eyes & clothing. Plastic gloves and protective eye wear should be worn while handling the resin or hardener. If contact with skin, wash with soap and rinse thoroughly with water. If contact with eyes, rinse with water for 15 minutes and get prompt medical attention. Do not take internally. Avoid breathing vapors. Keep out of reach of children.

Warranty:

Due to varying working conditions and methods, our liability is limited to the price of this product.
